Greetings . . . 1953

It is amazing how each year brings new hopes of better things. If our iris didn't do well last year, oh well, this is another year and they will do better perhaps. The brighter and warmer sun and the lengthening days always bring us new anticipations of life. The dull earth is greening and the iris shoots are spearheading the spring in a mad rush to outdo each other.

We have added many of the newer varieties to our list this year, and we almost regret that many of the older kinds must make way for them. We are located just a mile south of Hutchinson on Highway 17. Our blooming season reaches its peak about May 15, and we believe you will find our iris (2 acres) and peony (4 acres) gardens worth including in a tour of Kansas gardens. Our soil grows good roots and we insist that our customers are satisfied or we make adjustments.

Happy gardening to you! We offer this list as one garden lover to another, knowing that you will find, as we have, the peace and relaxation that comes from adding new beauty to your garden and home.

ACREDITED JUDGE OF AMERICAN IRIS SOCIETY

CULTURE

It is a mistake to assume that because iris are extremely hardy that they will not respond to a careful cultural plan. Above all, iris must have full sun and good drainage—given such conditions many of your iris troubles will be averted. Keep all dead leaves and litter removed—these breed disease. Iris will thrive in any ordinary garden soil. A good plan for the fertilizing of iris is to apply gypsum or lime in the spring, superphosphate after blooming, and a feeding of bone-meal in the fall. Larger blooms and more vigorous plants will be your reward.

GUARANTEE

All our stock is state inspected and we guarantee to supply clean, healthy roots, true to name. Adjustment will be made wherever any dissatisfaction occurs.

Permarker Garden Markers

For many years we have been searching for a garden marker that would in all ways be satisfactory. We have made them; we have bought them, but the PERMARKER beats them all. Plastic labels $2\frac{3}{4}$ " x $1\frac{1}{2}$ " are supported by a 14 inch, rigid steel support. We are changing all our markers this year to PERMARKER. Try a few and you will never use anything else. We can ship them in with your iris orders or we can send them separately.
